Expertise Across Every Stage

Gantry and Fabrication:

Specialising in designing and manufacturing gantry structures that perfectly complement all makes of overhead cranes, with capacities of up to 100t. Whether it's a free-standing gantry or a versatile gantry crane system, we deliver tailored solutions to meet your unique requirements.

Installations and Removals:

Delivering top-tier solutions for all your overhead crane and gantry installation and removal needs. Our expert team ensures a seamless process, minimising downtime and maximising efficiency.

Aftermarket Support:

Regular maintenance is crucial. Rely on our Aftermarket Support to prevent breakdowns, ensure longevity, and safeguard both personnel and productivity.

Diverse Solutions for Every Need

Overhead Cranes:

Choose from our diverse range of overhead cranes, lifting moderate to heavy loads up to 100t. We offer top-of-the-line solutions from all major crane manufacturers.

Light Crane Systems:

Efficient material handling solutions for various industrial applications. Our systems, with load capacities from 50 kg up to 2,000kg, provide smooth and ergonomic push/pull travel for effortless load lifting and movement.

Jib Cranes:

Versatile options for handling light loads in limited spaces. Choose from column or wall-mounted pillar jibs with lifting capacities ranging from 50 kg up to 2,000kg and a slewing range of up to 300 degrees.

Hoists:

Explore our extensive range of chain and wire rope hoists with lifting capacities from 125 kg up to an impressive 50,000kg. Sourced from leading manufacturers, our hoists ensure reliable and efficient material handling.

A-frame Gantry:

A practical solution for maneuvering loads within your factory. Our A-frame gantries, with load capacities from 50 kg up to 5,000kg, are designed and manufactured to meet your exact needs and available factory space.

Elevate your operations with **Lifting Systems** **Full Turnkey Services.**
