## Lifting Systems, the leading provider of innovative and reliable lifting equipment across the United Kingdom.

*We provide diverse solutions for every need.*

### Overhead Cranes:

Lift small to heavy loads (up to 100t) with single or double girder solutions, semi and full goliath systems.

### Gantry Steelwork & Runway Systems:

Freestanding or building mounted steelwork designed to support cranes of all types and sizes. We also supply straight and curved runway systems.

### Light Crane Systems

Smooth, ergonomic handling for loads from 50kg to 2 tonnes. Ideal for precise, effortless movements.

### Jib Cranes:

Compact, versatile solutions for loads from 50kg to 10 tonnes and up to 360° slewing range.

### Hoists:

Extensive range of chain and wire rope hoists (125kg - 50 tonnes) for reliable, efficient material handling.

### A-frame Gantry:

Tailored load solutions (50kg - 15 tonnes) designed to maximise factory space and efficiency.
